Grant Activity

Grant Activity - 2017 Engineering Assistance			
Description	Marshall County Comprehensive Local Water Management Plan		
	<p>The Marshall SWCD works with the Red River Valley Conservation Service Area (RRVCSA) on surveying, designing and implementing Ag Best Management Practices (BMPs) throughout the county. These funds will go to offset some of the costs associated with the RRVCSA work. Funds will go to survey, design, construction inspection, etc. for SWIs outside of the Red Lake Watershed District. The Marshall SWCD has funds for RRVCSA work but just in the Red Lake Watershed District. An average of \$300 per Side Water Inlet is what the RRVCSA charges.</p>		
Category	TECHNICAL/ENGINEERING ASSISTANCE		
Start Date	7-Apr-17	End Date	07-Mar-19
Has Rates and Hours?	No		
Actual Results	<p>Funds in 2018 and 2019 were used to help pay for Jim Hest's and Zach Foley's time. They are the Professional Engineers from the Red River Valley Conservation Service Area (RRVCSA) that assisted the Marshall SWCD in surveying, designing and signing off on the installation of Side Water Inlets (SWIs) throughout Marshall County.</p> <p>Also funds were used to pay for "Agreement of Services Between the RRVCSA and the NW MN SWCDs". This agreement is between Zach Foley/RRVCSA and the Marshall SWCD.</p>		

Grant Activity - 2017 Equipment Rental and Purchases

<p>Description</p>	<p>Marshall County Comprehensive Local Water Management Plan</p> <p>The Marshall SWCD currently has a Haybuster Drill that half was purchased in 2012 and the other half in 2016. 41 landowners have used the Marshall SWCD Haybuster to plant 1,400 acres, With Governor Dayton's proposed new Buffer law and continuous Conservation Reserve Program (CCRP/CRP) applications, the Marshall SWCD has numerous request for staff to come out and plant their acres. Funds will be used towards the rental of tractor(s) to be used with the drill(s). The Marshall SWCD currently uses their staff to plant acres with their drill. In 2016, Marshall SWCD staff rented a tractor at \$20/hour and used it for a little more than 200 hours. The Marshall SWCD sees rental of a tractor at least 300 hours in 2017. Marshall SWCD will also look at purchasing a screen/projector for their new meeting room.</p>		
<p>Category</p>	<p>SUPPLIES/EQUIPMENT</p>		
<p>Start Date</p>	<p>7-Apr-17</p>	<p>End Date</p>	<p>23-Sep-19</p>
<p>Has Rates and Hours?</p>	<p>No</p>		
<p>Actual Results</p>	<p>Funds in 2018 were used for the purchase of the Marshall SWCD Gandy Seeder. The Marshall SWCD uses this Seeder to help landowners with Buffer Implementation. Also funds were used to pay for rental of a tractor in for pulling the Marshall SWCD Haybuster Drill in 2018 and 2019. This Haybuster Drill was used to help plant CRP and Buffer Acres throughout Marshall County.</p>		

Grant Activity - 2017 Marshall SWCD Conservation Cost Share Program - SWIs

Description	Marshall County Comprehensive Local Water Management Plan		
	Marshall SWCD will use these funds as cost share assistance (75%) for the installation of Side Water Inlets (SWIs), Grass Filter Strips/Buffer Implementation (pay \$200/acre), Grade Stabilization Structures and Outlet Structures practices consistent with NRCS Field Technical Guide in Marshall County. For the Buffer Strip Implementation, no other state or federal funds will be used as an incentive payments. Local policies will be set for Marshall County before any of the Cost Sharing Dollars are utilized. Marshall SWCD staff will submit a local policy to the Board Conservationist for review and approval.		
Category	AGRICULTURAL PRACTICES		
Start Date	7-Apr-17	End Date	17-Sep-20
Has Rates and Hours?	No		
Actual Results	As of 9/17/20, there were 11 contracts with 20 Side Water Inlets (SWIs)/Grade Stabilization Structures installed on various ditch systems throughout Marshall County with these funds. Another contract was used to establish 1.5 Acre Grass Filter Strip.		

Activity Action - Jeremy Nelson Eng. 17-05

Practice	410 - Grade Stabilization Structure	Count of Activities	2
Description	2 Side Water Inlets (SWIs) were installed along County Ditch 20 in Grand Plain Township in the fall of 2017. Nelson Excavating of Thief River Falls, MN did the work and Jim Hest, Engineer for Red River Valley Conservation Service Area, signed off on the project. These SWIs will help reduce erosion for a total of 95.3 acres.
